

TURBOSWING FEATURES

SIMPLE DESIGN. EASY INSTALLATION.

TurboSwing’s patented technology elevates the tow rope above the wake like wakeboard towers and pylons without using up valuable real estate within the boat.

UNIVERSAL DESIGN

TurboSwing can be mounted to virtually any outboard powered boat - ranging from inflatables, to runabouts to cabin boats and pontoons.

EASY INSTALLATION

TurboSwing’s patented mounting system allows you to get your new TurboSwing installed and the boat on the water in no time.

REMOVES QUICKLY

Need to take the TurboSwing off the boat? With the addition of quick release clips, your TurboSwing can be detached from the motor bracket in seconds.

or speak to a specialist at : +31 71 30 11 220.

TURBOSWING

The TurboSwing tow system was designed to give outboard powered boat owners a simple and effective method to accommodate towed water sports.

THE ULTIMATE TOWING SOLUTION

The TurboSwing tow bar fits compactly around your boat's outboard engine and is easily removable so your boat can have dual personalities as an outboard wake boat one minute and an offshore fishing boat the next.

- ✓ Tubing
 - ✓ Wakeboarding
 - ✓ Kneeboarding
 - ✓ Water Skiing
- and much more...

TOWRESCUE

For commercial tow boat operators, towing is more than a hobby - it's an occupation. Having the right tools is essential to success.

ORDER TODAY

Which TurboSwing tow bar you need depends on the engine brand, type of mount required, horsepower, and number of engines. Questions? Give us a call and a TurboSwing specialist will be happy to assist you. To order online or find a dealer near you, please visit our website listed below!

Each TurboSwing tow bar comes with an EZpulley to attach the tow rope. If you would like to pull multiple riders simultaneously, additional pulleys can be purchased online, over the phone, or through an authorized TurboSwing dealer.
